BIOMÉRIEUX VISION SUITE
Data-Driven Decision Making

BIOMÉRIEUX VISION SUITE turns laboratory and hospital data into insightful, actionable information to support diagnostic and clinical decisions at all stages to better support antimicrobial stewardship.

By providing a comprehensive suite of software solutions that collect, analyze, and merge various sources of data, BIOMÉRIEUX VISION SUITE empowers you to make the right decisions at the right time.

DRIVE PERFORMANCE

IMPROVE DAILY WORKFLOWS

MAESTRIA™
The microbiology middleware for data-driven laboratory operations

Cutting edge microbiology middleware with smart data management features and flexible reporting options that allow you to streamline laboratory operations.
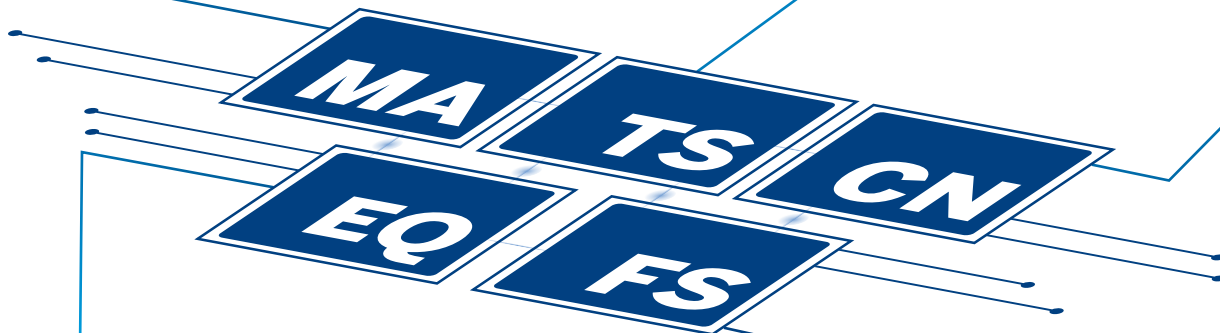

BIOFIRE® Syndromic Trends
Turn BIOFIRE® Systems results into smart pathogen trending

An epidemiology network that collects, compiles, and displays real-time pathogen results detected by BIOFIRE® FILMARRAY® Systems from labs across the globe.

CLARION™
Smarter stewardship, from lab to leadership

Track and compare relevant lab and clinical data across departments, processes, regions, and vendors, permitting you to extract actionable insights via easy-to-use dashboards.

BIOMÉRIEUX EPISEQ®
Microbiological genomic data analysis in a snap

The power of Next Generation Sequencing data for clinical pathogen outbreak management, microbiome profiling, and SARS-CoV-2 genomic variants identification. Not for diagnostic use.

BIOFIRE® FIREWORKS™
Optimizing laboratory services using data-driven solutions

Providing users total insights and analytics into BIOFIRE® System performance, utilization, and laboratory workflow management.
