

BIOMÉRIEUX

# CLARION™

AUGMENTING THE VALUE OF DIAGNOSTIC DATA

CN

**OPTIMIZE DIAGNOSTICS.  
OPTIMIZE THERAPY.**  
With our **complete solution**  
for **antimicrobial stewardship**.

PIONEERING DIAGNOSTICS

# CLARION™

## Analytics for Diagnostic Stewardship

Managing data in the lab can be time-consuming, and the process is often challenged by increasing demands and decreasing resources. With CLARION™, healthcare systems can uncover epidemiological insights to facilitate decision-making, support antimicrobial stewardship (AMS) initiatives, and aid lab performance optimizations.

### Support Infectious Disease Management

**Support informed therapy decisions by monitoring trends in organism occurrence and resistance patterns to:**

- Provide cumulative antibiograms in one click to help facilitate annual guidelines updates and enhance the accuracy of empiric therapy
- Track emerging antimicrobial resistance (AMR)
- Monitor circulation of respiratory viruses

### Optimize Quality Results

**Identify sample quality and ineffective collection practices for:**

- Blood culture: with blood culture stewardship dashboard
- Urines: with urine contamination dashboard

### Drive Lab Performance

**Optimize microbiology lab workflow and time-to-results by analyzing and monitoring:**

- Workload and workflow efficiency
- Rapid staining of positive blood cultures
- VITEK® MS spotting performance and workload

## Simplify IT with CLARION™ Cloud-Based Informatics

### User-Friendly Interface

Focus on your core business and expertise

### Accessibility and Flexibility

Access your data from anywhere and collaborate with colleagues

### Advanced Interoperability

Integrate seamlessly with existing systems for a unified data view

### Cloud-Based Architecture

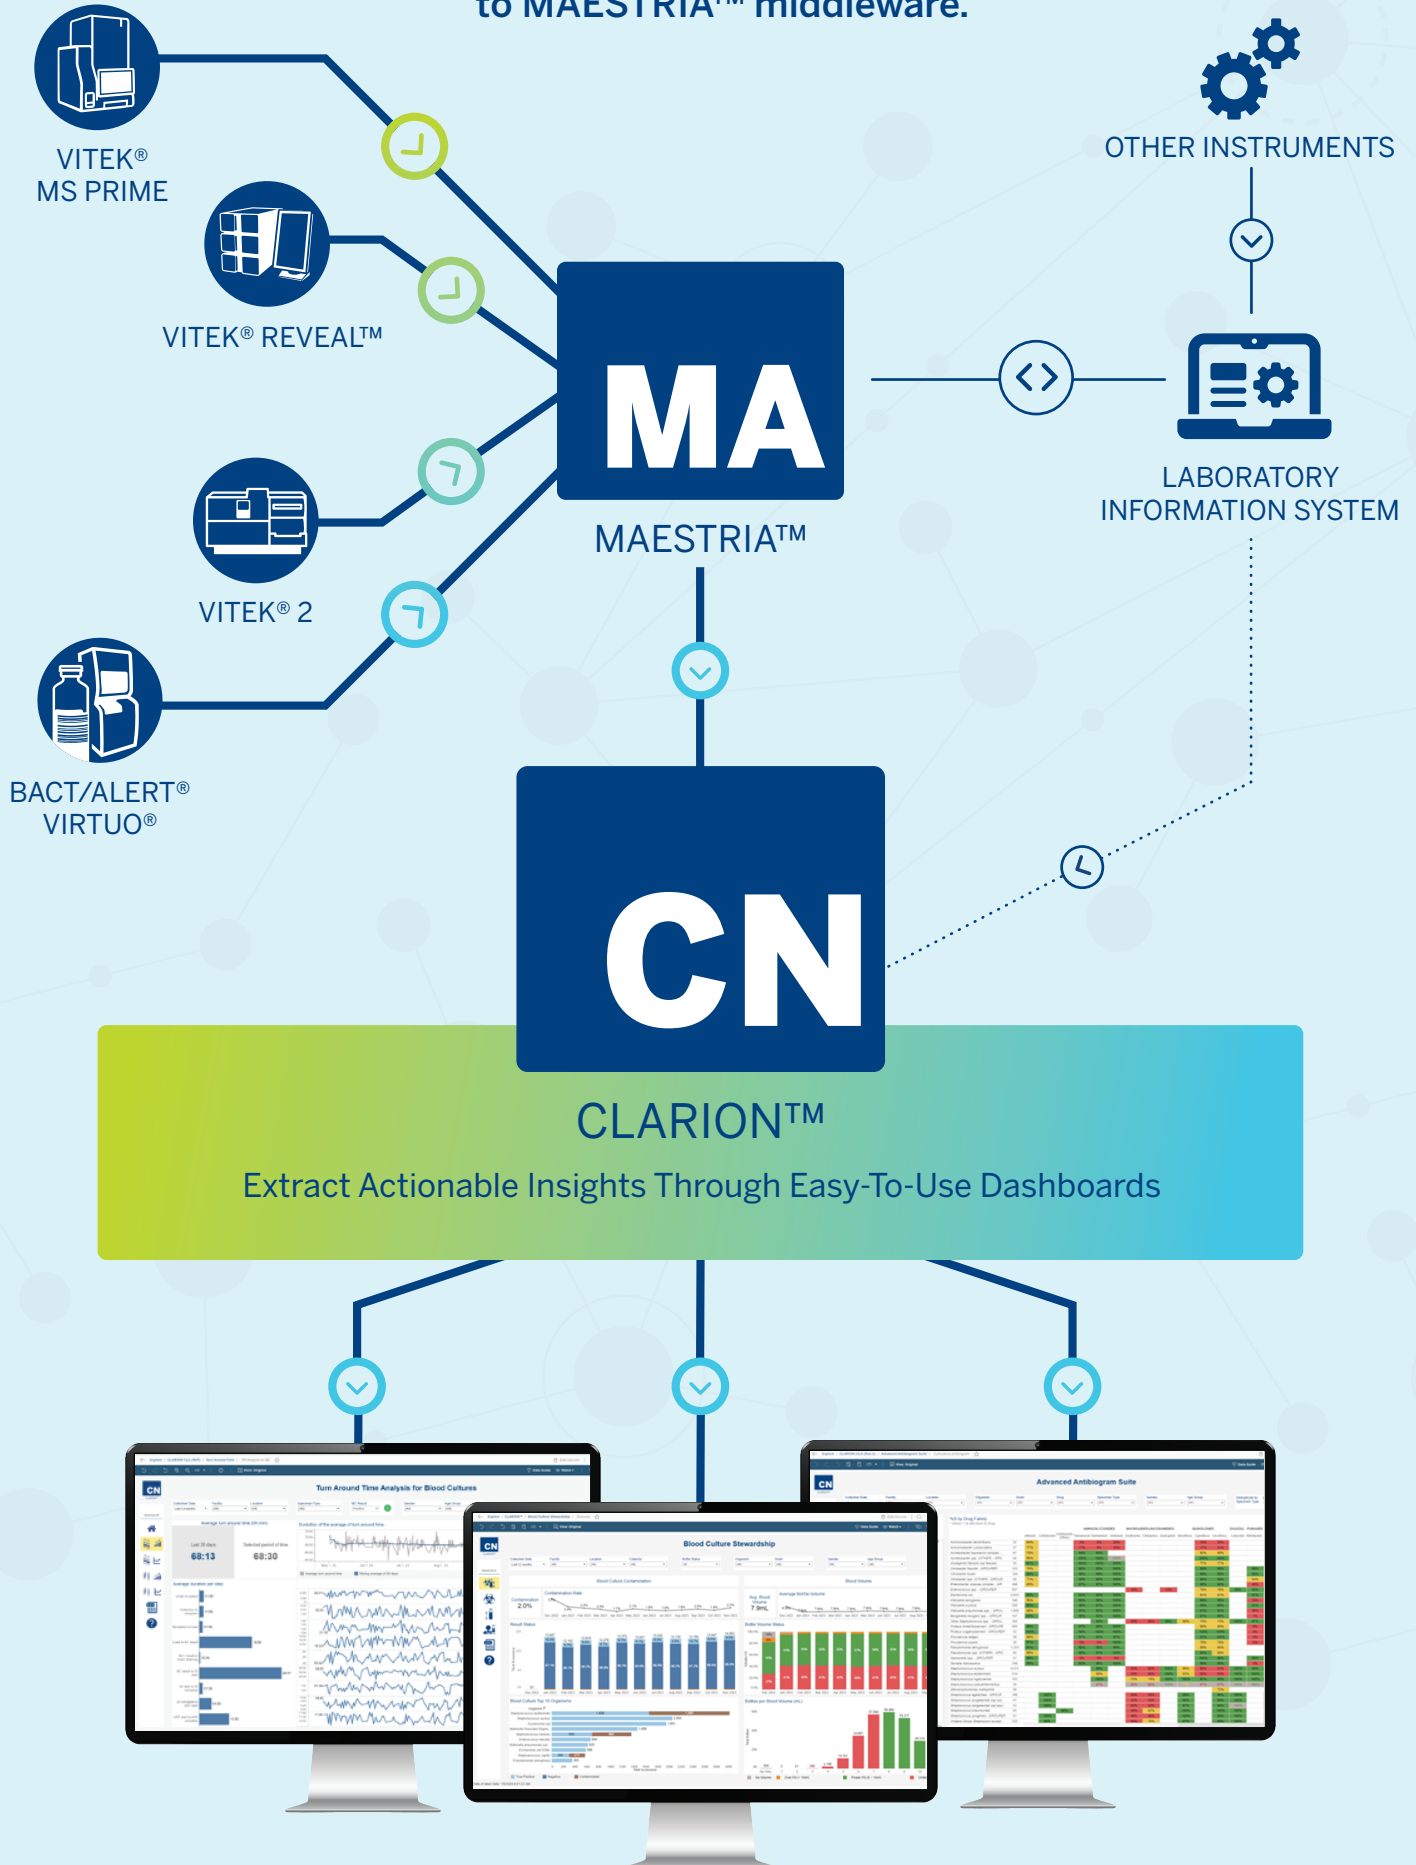

Deploy, maintain, and scale with ease

### Robust Security Measures

Ensure data security and compliance with industry standards

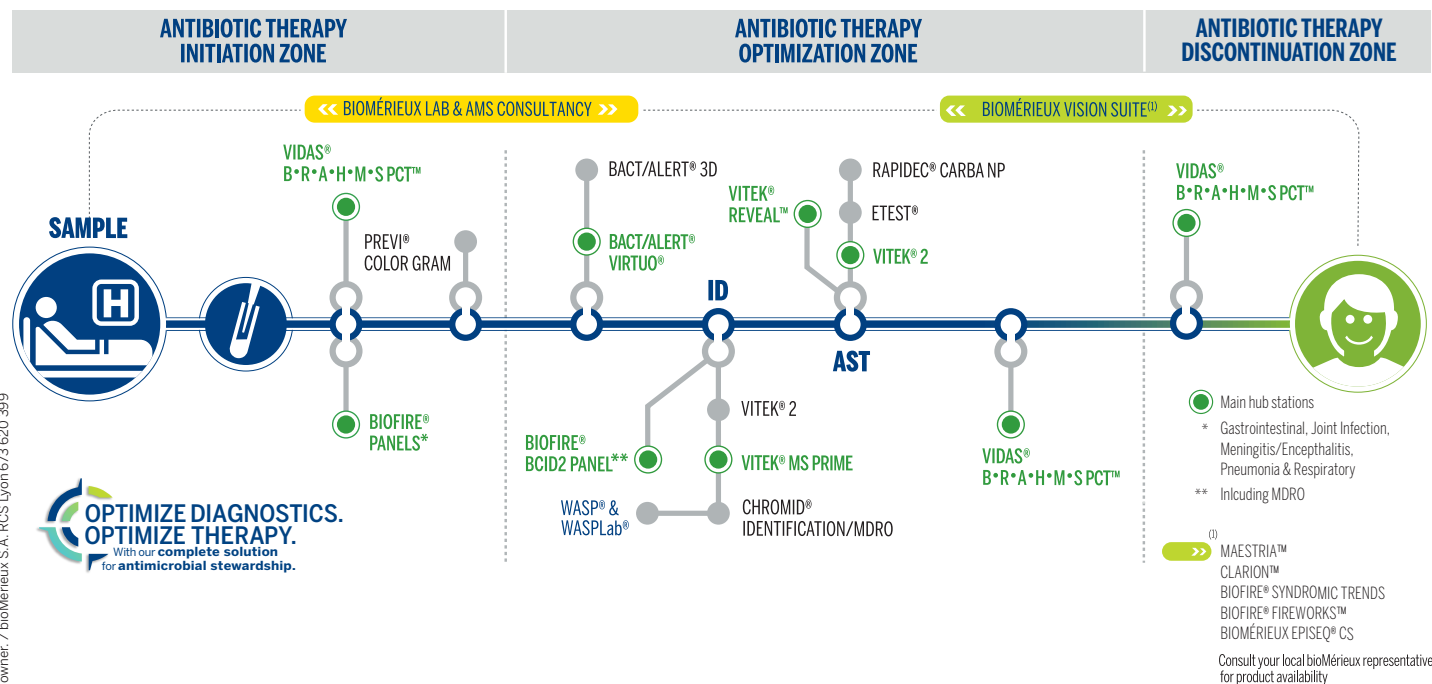

Leverage the power of CLARION™ with  
seamless communication from instruments  
to MAESTRIA™ middleware.

# A Software Solution that Reinforces our Antimicrobial Stewardship Offer

CLARION™ addresses stakeholder groups from the laboratory to AMS and infection prevention control (IPC) committees with actionable insights based on consolidated data.

## DISCOVER BIOMÉRIEUX VISION SUITE

### Data-Driven Decision Making

BIOMÉRIEUX VISION SUITE turns laboratory and hospital data into insightful, actionable information to support diagnostic and clinical decisions at all stages to better support antimicrobial stewardship.

By providing a comprehensive suite of software solutions that collect, analyze, and merge various sources of data, BIOMÉRIEUX VISION SUITE empowers you to make the right decisions at the right time.
