

BIOMÉRIEUX

TEMPO® FOOD QUALITY AUTOMATION

Because You Count!

Your Trusted Partner in Augmented Diagnostics

PIONEERING DIAGNOSTICS

Automated Quality Indicator Solution

ONLY **3** STEPS

as simple as 1, 2, 3!

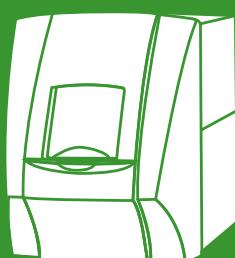

- ① Automated sample preparation

- ② Incubation in your standard incubators

- ③ Automated reading and recording

TEMPO® is a fully automated enumeration system that tests quality indicators in food products and environmental samples within your laboratory.

What does it mean for you?

People Empowerment

TEMPO® empowers your team with easy learning, prevents errors, and reduces extra hours and weekend work.

- Automation
- Reading time: <5mins - 20 cards
- No confirmation

Confidence In Quality And Results

TEMPO® offers an easier, faster process with no serial dilution and no cross-contamination.

- Simple and intuitive operation: only 3 steps
- Officially validated: AFNOR, AOAC, MICROVAL & Health Canada
- Sealed Cards

Traceability

TEMPO® ensures traceability, connectivity, and audit readiness.

- LIMS Connectivity
- Integrated Control plan & barcode
- VILINK® Remote Access

TEMPO® parameters

	TEMPO® parameters	NEXT DAY SOLUTION	ISO 16140-2	AOAC	MLG*
411113	AC Aerobic mesophilic total flora**	✓	✓	✓	✓
