

BE A **GAME CHANGER**

AN INTEGRATED APPROACH TO ANTIMICROBIAL STEWARDSHIP

bioMérieux takes a proactive partnership-driven approach to combating antimicrobial resistance (AMR), providing a unique and comprehensive offer that combines best-in-class diagnostics, unmatched software solutions, and collaborative expertise. Our solution supports:

- **Accelerated clinical decisions** with early and accurate diagnosis
- **Quick isolation of patients** with MDRO and prevent HAI
- **Monitoring and optimization of antimicrobials** to improve patient care
- **Reduction of overall antibiotic exposure** and possible side effects

PROPEL YOUR STEWARDSHIP PROGRAM FORWARD

A world leader in the field of *in vitro* diagnostics since 1963, our commitment to innovation and quality has earned us the reputation as a trusted partner in the fight against antimicrobial resistance (AMR).

Whether you are a healthcare professional or clinical laboratorian, our solutions can help you optimize use of diagnostics and analytics to enhance the continuum of care and increase the economic value of stewardship.

With Diagnostic Solutions
for Antimicrobial Stewardship

PIONEERING DIAGNOSTICS

ACTIONABLE DIAGNOSTICS

Activate fast, actionable infectious disease diagnostic tools to support responsible use of antimicrobials throughout the patient journey.

- Confirm bacterial infection & identify the causative pathogen
- Determine a pathogen's resistance profile to select the most appropriate treatment
- Monitor patient response to personalized therapy

BACT/ALERT® VIRTUO®

Automated Blood Culture

VIDAS® 3

Immunoassay System

VITEK® 2

Identification & Antibiotic
Susceptibility Testing

VITEK® MS PRIME

Mass Spectrometry
ID System

BIOFIRE® PANELS

Syndromic Multiplex PCR Testing,
6 Panels, 170 Targets, ~1 Hour

ADVANCED ANALYTICS

Discover the untapped potential of diagnostic data. Connect diagnostic results to therapeutic decisions that contribute to better patient outcomes.

VISION SUITE

Software solutions that empower users to make the right decisions at the right time.

CN CLARION™

Smarter stewardship, from
lab to leadership

MA MAESTRIA™

Microbiology middleware
for data-driven laboratory
operations

EQ BIOMERIEUX EPISEQ®

Microbiological genomic data
analysis in a snap

FS BIOFIRE® FIREWORKS™

Optimizing laboratory
services using data-driven
solutions

COLLABORATIVE SERVICES

Start doing more with what you have. Accelerate the impact of your stewardship program with customized strategies and educational resources – from the lab to front-line care.

LAB CONSULTANCY

Partner with us to improve workflow efficiency and equipment use to maximize performance and drive stewardship program initiatives.

CLINICAL EXPERTISE

Take your stewardship program beyond the minimum regulatory and accreditation focus and accelerate medical and economic impacts.

EDUCATIONAL RESOURCES

Elevate staff skills and stewardship knowledge with education and training that connects current antimicrobial resistance challenges with real-world solutions.

As the **largest in vitro diagnostics company** committed to antimicrobial stewardship, **we help optimize the use of diagnostic solutions** to detect, identify, and treat today's most urgent drug-resistant pathogens.
